

Preparation

For a table with 8 players:

- Print and prepare one entire set of System Cubes for the system of your choice (Approx. 25 – 36 prepared System Cubes + 1 set of blank System Cubes)
- Print 3 sets of the Intervention Cards (3 x 8 Cards = 24 Cards)
- Print one set of the prepared and 10 blank GameChanger Cards (2 x 10 Cards = 20 Cards)
- Place the game material on a board or a big sheet of paper (approx. 60cm x 80cm or DIN A1)
- Prepare two dice (one from 1 -6 and one from A – F)

For the System Cubes we use wooden cubes sized 45mm x 45mm x 45mm. We print the labels on 40mm x 40mm square labels and stick them on five sides of the wooden cubes.

For the Intervention Cards and GameChanger Cards we use 150g paper sheets for a high quality and haptic feeling.
